

Date: 28.10.2020

Meeting purpose: To decide how we'll organise ourselves

Participants: Coman Diana, Constanda George, Musatescu Costin, Nicolae Andreea, Petcu Monica, Sendroiu Ioan

To discuss:

- Creating a github project for storing
- Using Asana for management

Key decisions:

- We decided to use Python to implement the project

Tasks and ownership:

- Creating the github – Andreea Nicolae
- Taking care of the meeting minutes – Diana Coman
- Making an Asana account and adding collaborators – Andreea Nicolae
- Wiki page – Andreea Nicolae

Date: 31.10.2020

Meeting purpose: Project implementations details

Participants: Coman Diana, Constanda George, Musatescu Costin, Nicolae Andreea, Petcu Monica, Sendroiu Ioan

To discuss:

- Added a wiki page for the project
- Some details about the implementation

Key decisions:

- We decided to make the data into cvs files, how it will be divided to work with it and divide it in the three mentioned sets.
- We made some research on statistics about corona results, to further understand the factors that influence the demographics that it spreads to more easily.

Tasks and ownership:

- Data changes and Data Sets – Monica Petcu, Diana Coman
- Research about implementations– Andreea Nicolae, Constanda George, Musatescu Costin, Sendroiu Ioan

Last meeting tasks status :

- Done

Date: 05.11.2020

Meeting purpose: Deciding what algorithms will be used in coding, dividing coding tasks

Participants: Coman Diana, Constanda George, Musatescu Costin, Nicolae Andreea, Petcu Monica, Sendroiu Ioan

To discuss:

- Strategy for implementation

Key decisions:

- We discussed further the details of our implementation and what we will use as frameworks and work spaces.

Tasks and ownership:

- No tasks were assigned.

Last meeting tasks status:

- Done.

Date: 07.10.2020

Meeting purpose: See how coding goes

Participants: Coman Diana, Constanda George, Musatescu Costin, Nicolae Andreea, Petcu Monica, Sendroiu Ioan

To discuss:

- Some things about implementation

Key decisions:

- We split the coding part in separate tasks and assigned said tasks to team members accordingly.
- We decided to continue working in Collab Notebooks or in DeepNote according to the size of members on the tasks.

Tasks and ownership:

- Data Visualisation– Ioan Sendroiu
- Data manipulation – Diana Coman
- Data Encoding and ML Model – Andreea Nicolae and Ioan Sendroiu
- Metrics computation – George Constanta
- SSD scheme – Costin Musatescu
- Testing and Model statistics – Monica Petcu and Costin Musatescu

Last meeting tasks status:

- No assigned tasks

Date: 17.11.2020

Meeting purpose: To decide on the last details and the presentation

Participants: Coman Diana, Constanda George, Musatescu Costin, Nicolae Andreea, Petcu Monica, Sendroiu Ioan

To discuss:

- Details for presentations and other issues

Key decisions:

- To update the wiki and make a ppt presentation
- Discussed details of the final results and some interpretations

Tasks and ownership:

- Updating the wiki – Andreea Nicolae
- Making a ppt presentation – Andreea Nicolae

Last meeting tasks status:

- Done
